

Quick Sheet: Download Asset

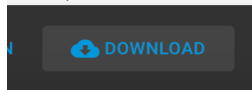

This quick sheet illustrates the process for a user to download an asset.

There are two ways to download an asset.

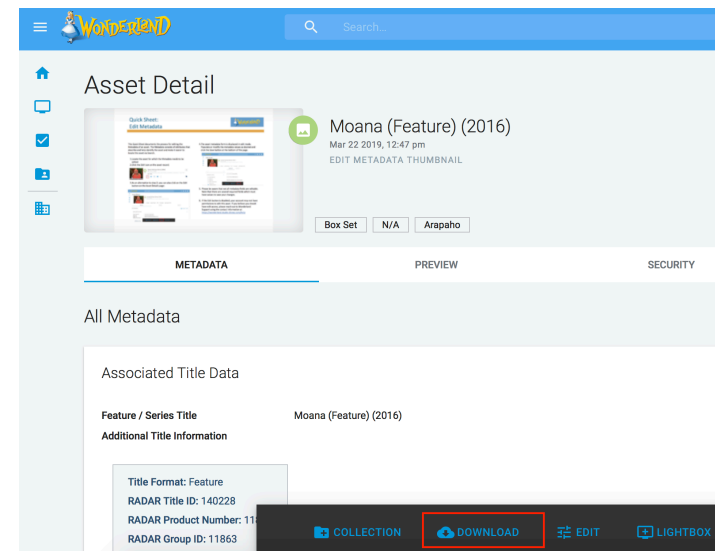

Directly from the homepage

1. Select an asset you would like to download by checking the box associated to it.
2. From the bottom panel, Hover your mouse cursor over the *Download* icon.

From the asset detail page

1. Click on the asset icon on the left for the asset you would like to download.
2. From the asset detail page, click on *Download* button at the bottom of the page.

3. This action will download the asset to the folder location specified in your browser settings.

Note: If the icon/button is disabled, your account may not have permissions to download this asset. If you believe you should have download access, please reach out to Wonderland Support using the contact information at <https://wonderland.studio.disney.com/help>
